## *I. The purpose of life*

---

Humanity and life on planet earth are a Manifestation of Kosmic Consciousness gradually developing into an ever higher Manifestation of Itself. Of ever higher forms of Intelligence, Beauty, Wellness and Oneness. This is called Spirit-in-Action. Kosmic Consciousness exists beyond Space and Time.

The purpose of all life forms is to cocreate and enjoy ever higher forms of Kosmic Manifestation.

No living entity exists of its own, it is part of the whole of Being, essentially in service of its True Nature. Every living entity is in essence a Kosmic Player in Heart and Mind.

Emphasis of life and economy needs to be on Exploration of ever Higher Manifestation, instead of ever further Exploitation of our planet and ourselves.

We all share this planet, whose presence and resources should benefit all of humanity.

---

---

## ***II. KI will shape the world, not AI***

---

Kosmic Intelligence and Beauty are shaping the Universe into ever higher Manifestation. A coherent Manifestation in our individual being, our cultural heritage, legal and democratic infrastructure and our social, ecological, technological, economic development.

This higher Manifestation is implicitly waiting to be realized, knocking on our doors all the time.

At first just a matter of tuning in, second hard work to realize. Kosmic Intelligence is integral, not just AI driven formal-logic. It includes moral, aesthetic, creative, social, ecological and scientific intelligence. Developing hand in hand, being interdependent.

An Intelligence that never would have built atomic bombs, AI driven weaponry, biological weapons of mass destruction, an economic system that increases inequality, destroys our ecosystems, causes climate change, all deeply threatening to our civilization.

### ***III. Heading towards Civilization 0.2***

---

*I hiked through the magnificent mountains of Zanskar and met The Little Monk at Phugtal Monastery, where I had an interesting conversation and some delicious yak butter tea. This is an extract of the conversation on levels of Civilization.*

The little monk grasped his pencil and booklet and started to make a sketch.

---

The Cosmic Kardashev Matrix

Level of Cosmic Depth

|   |     |       |       |       |       |
|---|-----|-------|-------|-------|-------|
| Types<br>of<br>Technological<br>Advancement | 0   | 1     | 2     | 3     | 4     |
|   | I   | I.1   | I.2   | I.3   | I.4   |
|   | II  | II.1  | II.2  | II.3  | II.4  |
|   | III | III.1 | III.2 | III.3 | III.4 |
|   | IV  | IV.1  | IV.2  | IV.3  | IV.4  |

Development of Civilizations

“On the one hand Civilizations have technological advancement,” the little monk said, “and on the other hand Civilizations have spiritual advancement.”

“That is funny,” I said, “because usually only one or the other is characterized as advancement. Resulting in either cold looking future planets full of flying spacecrafts, skyscrapers and scary aliens, or illuminated blue transhumans living in the middle of the jungle.”

---

“Ha,” said the little monk, “or a lonely little prince on his personal planet, taking care of a blooming red rose. But maybe I should explain my sketch of the development of Civilizations a little.”

“Types of technological advancement, or the so-called Kardashev scale, are defined by the way Civilizations use energy. Type 0 is not able yet to access the full energy capacity of its planet, obviously in an ecologically friendly way. Mirror Humanity. Type I is fully able to access the energy capacity of its planet, Type II that of its star and Type III that of its Galaxy.”

“Levels of Kosmic Depth are defined as follows: Level 1 is a Civilization that is not developed in full service of its people and planet. On Level 2 we are all World Citizens, living in service of our mutual wellbeing and our ecology. On Level 3 we understand we don't exist as individuals independent of each other, that we get up in the morning as part of One Consciousness, some would call it Christ Consciousness. On Level 4 we are living in full service of realizing ever higher levels of Oneness.”

---

---

“And that way we finally get rid of all these scary images of so-called advanced aliens,” I said. “In reality ET still wants to Phone Home.”

“Indeed, ET doesn’t feel much at home in our 0.1 Civilization,” the little monk said.

“But ET certainly would like a warm cup of yak butter tea!” I said.

The little monk ripped out the sketch from his booklet and handed it over to me.

*In terms of Evolution, of Growing Up, humanity is heading towards a 0.2 Civilization. This should be a gradual step by step development. History has shown differently though, and the future might show differently again.*

*As they say in Zen: “What is the sound of One Hand clapping?” We are just One Being, We have this future in our own hands. Let’s take the path of positive transformation towards this new Civilization. The gradual path of accumulating Real Wealth.*

---

---

## *IV. The 49 Laws of Power*

---

The 49 laws of power for a Kosmic Player in our World, to contribute to the gradual transformation of humanity into a 0.2 Civilization, as expressed in Kosmic Poetry. Although working towards a I.2 Civilization would even be better of course! Ecoproof access to our energy capacity too.

*The Real Door of No Return stands Always Open,  
Hoping for Everyone to Enter and  
Engage in ever more Abundance of Peace*

*Follow this Path and you will understand,  
Only The Kosmic Dream is Real  
Resting in compassion and patience, since  
There is no Condemnation Room, although  
Your Contribution makes the difference*

*Neither Time nor Space exists,  
In this Present Moment only do we live  
Neither life nor death exists, just  
Empty Mirrors of Total Experience*

---

---

*Live as if you were never born or will never die  
And preserve mankind and the planet earth  
While its fate entirely Hinges upon your  
Solidarity, intelligence and Intent*

*Our technologies, Doctor, must solely be used  
For reaching Abundance of Peace too*

*Play in the Band, while being the Audience  
Or have some coffee with your friends,  
Witness the Night: a deep dive into the  
Emptiness of your Mind, the Source of Life,  
Returning to the Day to Dance!*

*For there is no personal God  
Or Deity who comes to rescue,  
Responsibility rests upon yóur shoulders*

*Afraid to carry This Weight?*

*Kosmic Support is available around the corner  
Or Close Encounters of some kind  
Sometimes in the Form of the very Ordinary*

---

---

*Mysterious Moments Crossing your Path  
Inspiring to co create ever more  
Crystal clear Truth, Beauty and Oneness*

*Power radiates from a calm mind who  
Learns to handle The Magic Sword with  
A certain sense of Humor,  
Your service to the Light that since  
Eons longs to hear the Birds'  
Rhapsody in Blue too*

*If you ever doubt to become a Kosmic Player  
Notice the Waste Land we all face*

*Our (im)material gains being built  
Upon the destruction of our planet, inequality and  
Radical rejection of our True Nature*

*Wake Up and buy a Latte Macchiato  
Or Matcha Green Tea for the girl that lifts the barrier  
Receive her Eternal Smile and Feel the  
Love we can create in such simple ways beyond the  
Door of No Return to the New World*

## ***V. $E=mc^2$***

---

If Spirit in Action is the driving force of the universe and humanity and all of us can be(come) Kosmic Players serving our True Nature, how can we define conscious evolutionary action as a Kosmic Player?

There are many aspects influencing conscious evolutionary action. To define conscious evolutionary action, it is worthwhile to bring all of these aspects together.

For this purpose we use the well known Einstein equation of energy ( $E=mc^2$ ), but this time not for physical energy, but for Energy created by conscious evolutionary action, or Kosmic Energy or Kosmic Engagement.

The equation  $E=mc^2$  gets another meaning. The Kosmic Energy or Kosmic Engagement created by evolutionary action will be as follows:

$$\text{(Kosmic) Engagement} = \text{Mindfulness} * \text{Creativity} * \text{Connectivity}$$

---

---

### *Mindfulness*

Mindfulness is the sum of the following aspects: a mind conscious of its True Nature, of the different levels of human development and the social-ecological selfie of humanity and our planet. Reality is perceived through these lenses of the mind.

### *Creativity*

This is the use of our best intellectual and social qualities, skills and knowledge. But also the use of all the instruments available for us these days, technological, scientific, financial, organizational. And of course subtle qualities like vision and imagination.

### *Connectivity*

This is our ability to reach out with our actions to the lives of our fellow human beings, communities and the environment. Our ability to connect.

***This equation is valid on an individual and collective level.***

***This means that a Kosmic Player can be an individual,  
but also an organization, movement or government.***

***Even humanity as a whole.***

---

---

For an individual it means that the Kosmic Engagement generated by conscious evolutionary action is dependent on mindfulness and on using the best of its abilities, knowledge and tools available to have impact on the lives of other human beings and the environment.

On a collective level this means that Kosmic Engagement generated by evolutionary action of an organization, movement or government is dependent on its mindfulness, its organizational power and ability to connect with people, society and the environment.

| TYPES OF EVOLUTIONARY KOSMIC CHANGE                 | CHARACTERISTICS   |
|---|---|
| Kosmic Storage                                      | Building up Kosmic Energy / Engagement to contribute to gradual realization or tipping points of Evolutionary Kosmic Change |
| Inclusive space for humanity                        | Realizing a sustainable and just space for humanity   |
| Inclusive value within inclusive space for humanity | Adding inclusive cultural, social, economic, scientific or technological value within this space                            |
| Kosmic Address Growing Up                           | Changing level of human development   |
| Kosmic Address Waking Up                            | Realizing your True Nature and Oneness with all Manifestations  |

*Figure: Types of Evolutionary Kosmic Change*

---

---

The Kosmic Player that creates Kosmic Engagement can realize five types of Evolutionary Kosmic Change, see the above figure.

The Kosmic Player, as an individual or organization, movement or government generates this Kosmic Engagement to be able to make any person, community, society, the world and planet as a whole more awakened, more sustainable, just and safe. Or adds inclusive artistic, spiritual, cultural, social, economic, scientific or technological value. Or changes the Kosmic Address of human beings or humanity.

Let's be clear, this doesn't mean we are only valuable if our impact is huge. It is estimated that around 1 % of the world population (or around 5 % of the Western population) is at the level of full mindfulness. This is the level of system change. Not many people, e.g. only a few politicians and other leaders can meet up to this level. Although international organizations like the UN or IPCC are setting the stage.

And in private organizations there are enough examples of ceo's trying to bend their organization into the

---

---

direction of mindful missions and strategies. But most of them get knocked out sooner or later by their shareholders.

Only few individuals are able to shake the ground under our foundations. Like Greta Thunberg. Starting out as a solitary Kosmic Player, but catapulted in no time into a world wide influencer on climate change. But in general, for anyone or organization who tries to change the systems, it feels like being Don Quichot. Because it is so hard to do. Still, it has to be done.

*Don Quichot*

---

---

Any Evolutionary Kosmic Engagement being created is valuable. Just drinking coffee with a friend can be very valuable in these terms. Or being friendly and respectful to your fellow human beings meeting at the marketplace, buying e.g. some organic fruit. Or contributing to a better life and future for a child. Or an animal, or taking care of your garden.

And if you can't contribute directly, your conscious evolutionary action might as well be a very valuable thought, feeling, vision, concept, moral or just a Word (as in the Beginning) submerged in mindfulness which will be added to the Storage of Kosmic Engagement. This too is part of Spirit in Action.

The idea is not that a Kosmic Player only changes the systems and society on a relatively high mindful level, although this urgently needs to be done. But there are more and more citizens at any age who, with a mindful mindset, contribute in day to day life, in the workspace, at the market. They can't change the system, except for trying to contribute to this by using their political voice (if allowed) once every so many years.

---

---

More young people now worldwide e.g. drastically consider not having children as a contribution. Or decide to fly only once every two years, or not at all. These are also ways of being a Kosmic Player with an integral mindful mindset.

And if enough stored Evolutionary Kosmic Engagement has been built up, an *inflection or tipping point* might be reached that makes a breakthrough possible to real Kosmic Change (see the above figure).

So although it is estimated that the number of people worldwide at a relatively high mindful level is very little, the amount of people acting in their daily life with some notion of a mindful mindset is growing exponentially on all levels of human development. This notion is slowly descending into our current cultural value systems. This is a hopeful development.

Being a Kosmic Player is not an easy task. There is great joy, but also the burden of being on the razor's edge of evolution. It comes with Responsibility, but it also comes with Play in day to day life. It is a challenge to keep a balance in these two.

## ***VI. Bardonomics***

---

250 years after Adam Smith's economic principles, it is time we develop a new kind of economics. An economics guided by the new principles of being in service of our True Nature and the fulfillment of a higher Civilization.

The most basic formula of J.M. Keynes is:  $Y = C + I + G$ . Let's consume, invest and govern according to these new principles. Let's measure the accumulation of wealth and quality of our ecosystem according to these new principles.

The individual doesn't exist independent from humanity, our planet, the universe, like in a hologram. We share this planet, we are all shareholders who want a higher value.

*All markets the Ox-Herder enters are free  
since we are rational behaving human beings.*

*Every transaction we make is not about money,  
but opens the door to unlimited living.*

*The accumulation of capital in the hands of just a few  
opened Pandora's Box for our generative society.*

*A form of evolutionary dissonance up to the point*

---

---

*we find out which problems really need solving.  
In Bardonomics we catalyze into Absolute Freedom,  
since you are the light watching itself dream.  
It deepens the Trust in our collective intelligence  
to ground sustainability dipped in deeper meaning.  
To transform an economy based on personal needs  
to a civilization embracing transpersonal Being.  
An Affluent Society posts messages in a Bardobottle:  
“May whoever finds this feel  
as Happy as My Straw Hat Crew.”*

---

## *VII. Jus Gaia*

---

*Hear, hear! Why are only a few whispering  
That there exists just One World Citizen?*

*Alea iacta est, Jus Gaia est!*

*Let's cross this river in our quest  
To become real brothers and sisters  
On a just, sound and profound planet!*

---

---

## ***VIII. Natural Intelligence***

---

*Only those species and organisms survive  
who are able to enrich their environment  
and the planet Earth as a whole.*

*Neither the Darwinists, nor the smartests,  
but those who raise the vitality  
and the value of life for us all.*

*That's why termites invest in 'making-green',  
mushrooms invest in 'making-rain',  
whales invest in 'making-oxygen',  
wolves invest in 'making-life',  
trees invest in 'making-weather'.*

*Planet Earth with all its geology, biology  
and levels of spiraling consciousness,  
is just One profound living Being,  
driven by this law of Natural Intelligence,  
striving for ever higher viable complexity.*

*Let's face it before it is too late.*

---

---

## ***IX. Resolution # 9***

---

It is clear we need to strengthen the UN in its organization, legislation and executive power. Gradually working towards a World Government of Democratic states, of World Citizens of a shared humanity and planet earth.

*For the meek to realize Abundance of Peace,*

*A threefold plan is in dire need.*

*First we need to understand*

*What Abundance of Peace really means,*

*No longer lost in translation.*

*Second, we need to live it and beyond,*

*Leave the map behind and Dive Inside the Crystal.*

*And third, we need to Trust the Magnetic Touch*

*That comes with living it thoroughly,*

*Slowly growing from our Glass House Hearts.*

*This plan needs to be agreed upon*

*By the Security Council under Resolution nr. 9.*

*Fourteen voting in favor, just one withholding.*

*And every morning we will Lift each other's Dreams,*

*So we won't Fall from Our Tree, till the end of Times.*

---

---

## *X. General Theory of Employment*

---

Just have two things in common with John Maynard Keynes. Not wearing a moustache though.

If we define employment as being a Kosmic Player, our rate of unemployment is sky-high. Much worse as during the Great Depression. So that's why the problems in this world are piling up. Let's hope for a better outcome than the end of the Great Depression. Although we might say we are already involved in a hybrid world war on Values and Energy Transition. And the weaponry is piling up too.

There is enough wealth in this world to make Real Employment economically sustainable, for every World Citizen. A matter of a shared mission (infinite demand for an ever higher Manifestation!), innovation and Corporate Cooperation. This makes the formula for Full Employment:

*The square of Zero  
is One, and the root of One  
defines a Hero*

---

---

## ***XI. 10.000 years***

---

Will 10.000 years be enough to reach the level of Civilization 0.2, or 1.2, or even further. To get out of the danger zone, realize our True Nature and live according to it? Or do we prefer to get back to 0.0 and try another time?

*We will meet every day  
In The Tail of the Fish  
To take an Early Times dive  
Into the state of affairs  
For the next 10.000 years*

---

---

*We will resist the G-men as  
Partisans from the mountains  
Until the level of ppm  
Is back to normal again  
For the next 10.000 years*

*We will accelerate by  
Digging Wormholes in  
Space and Time to  
Raise Consciousness  
For the next 10.000 years*

*And when finally there will be  
One Earth, One People,  
One World Citizen and  
Jus Gaia will prevail,  
We will retreat to Pacifica*

*We can finally finish that  
Puzzle of 10.000 pieces,  
Walk along the beach,  
Listen to 'Terrapin' and  
Be at Home, my friend*

---

---

## *XII. Chariots*

---

I hear the sounds of those who are willing to take a detour again on our path to Civilization 0.2, or even willing to take the risk of returning to Civilization 0.0.

*Arjuna on his Chariot*

*I see the Black Hand  
drinking coffee in the street  
when the carriage arrives.*

---

---

*I see a radio station seized,  
broadcasting fake news,  
leaving dead bodies behind.*

*I see a Black Hand  
invisible above our heads,  
taking off its gloves again.*

*I hear the podcasts  
shout about cockroaches  
that need to be destroyed.*

*I feel the Black Hand  
accelerate its Rapture,  
leaving the rest behind.*

*I hear the sound of Chariots  
broadcasted at Midnight,  
when families are fast asleep,  
when families are fast asleep.*

*And there are other Manifesto's too.*

---

---

## ***XIII. Plaque of the Untermensch***

---

And then we have 'the problem' of 'the inferior people',  
immigrants or otherwise. Savages to a Brave New World.

*Half Pint People*

*Collapse 40 times a second*

*Meeked and meshed*

*All over their shoulder*

*Short curled like a Bonze*

*From the Book of Esther*

*This time it's us*

*Plague of the Untermensch*

---

---

## *XIV. Who Dares?*

---

So it is not easy to be a Kosmic Player these days. But we have to Show Up. Wake Up, Grow Up, Clean Up, Show Up.

*Who dares to swim  
in a pool of tears?  
Who dares to climb  
down the ladder  
to hear the children scream?*

*Who dares to let it all in  
until they are coming after you?  
Who dares to roam  
Dante's Inferno  
until all hearts are healed?*

*If you can't stand it anymore,  
your White Blood Cells start to cook,  
ask Virgil to stand in for a while,  
until you are fully recovered.*

*With his experience on The Other Side,  
we need him here more than ever.*

---

---

## *XV. Maroon Red*

---

We could get inspiration from TinTin, Captain Haddock and Professor Calculus, to wrap The White Gaff in Red.

*Dance to thy Daddy, sing ti' thy Mammy  
Thou shalt have a fishy on a little dishy  
Thou shalt be a TinTin when the boat comes in  
Dance to thy Daddy, sing ti' thy Mammy  
Thou shalt have a fishy on a little dishy  
Thou shalt be a Haddock when the boat comes in  
Smoke a cigarette in Karaboudjan's cabin  
And wrap The White Gaff Maroon Red*

---

---

## *XVI. Jesus of Gazareth*

---

Another Revolutionary we might see as an inspiration.  
Christ Consciousness is not different from Kosmic  
Intelligence, in the purpose of ever higher Manifestation.

*Jesus was a true Palestinian  
educated by the Essenes  
He had short curly brown hair  
wearing a black and white keffiyeh  
wrapped around his neck  
A simple farmer and fisherman  
tilling the land with a donkey and a plow  
maintaining the soil with a rake and a hoe  
harvesting the wheat with a scythe and a sickle  
He kept some olive trees too  
picking the olives with his bare hands  
together with his wife, family and friends  
telling them the one and only Truth  
Those in authority hit him,  
all tied up, with a cedar stick  
until he died the life of a righteous Martyr  
whose Kingdom is still at hand*

---

---

## ***XVII. MIR***

---

The Kingdom of Jesus can be categorized as a I.4 Civilization. That is a long way to go. But Allons!, Chello! We are living in an Implicit Universe, longing to flower its hidden seeds in Pure Consciousness. Flowering its Pure Joy. Knocking on our door day by day with a brand new bouquet. If we are willing to participate.

*Looking down from  
my MIR space station,  
I orbit the Ladyfinger  
MIR Kingdom  
in its Alpha-Zero  
stage of development.*

---

---

*A Civilization that has not  
reached its full energy capacity yet,  
within its ecological boundaries.*

*A society that is not yet  
organized in full service  
of its World Citizens.*

*How I long for a Collective  
that reaches its Delta-III  
Tertön Threshold capacity,  
hinniks like a Maroon Mustang,  
spreads lyrics by the wind,  
inhabits the Deep Water  
potential of our Galaxy.*

*ET finally back home again.*

It is the kind of Pure Joy that collapses the wave function in Quantum Mechanics. The driving force of the Universe. The driving force of all of life, of human beings, societies, the production of art. Of Love, of the song of birds, and We Are It. We sing to ourselves, we are the sun that the morning brings. Timeless, before our parents were born.

---

---

## *XVIII. A Simple Satori*

---

Timeless, before our parents were born. A Simple Satori.

*I am not interested in the pink mangrove hippo,  
Neither in the brown sourdough monkey,  
Nor in the tremendous yellow giraffe,  
Just give me a hammer and chisel,  
Some cymbals and a red bell,  
To enchant you with a Simple Satori,  
With no beginning and no end.*

---

---

## ***XIX. Guidance***

---

On your Path to create Kosmic Change guidance can take place. Guidance transcending Time and Space. Let me give you a personal example.

I once dreamed of this Lady coming down the stairs of my parents home. She guided me outside to the meadow behind our garden's hedge. Where I suddenly saw this dazzling non-blinding Light. Which shook the core of my being.

---

*Lady of Light walks down the stairs  
Of our Yellow House in Hungerland;*

*Takes me by the hand gracefully,  
Opens the door silently, brings me  
To the meadow behind the bare hedge.*

*A non blinding sizzling white Light  
Shines from behind the trees,  
My body trembles in my sleep.*

*The Lady never left me since,  
And that made all the difference.*

So many years later I learned from an online lecture about the Empress, with in her right hand the image of an Eagle. One of the qualities of the Eagle being: 'To look into the sun without being blinded'. Now my pen name happens to be 'Adler', and the sun obviously being The White Light that doesn't blind the eyes.

Kosmic Intelligence does know its Tricks, shows its Magic now and then. Life is pure mysticism. Also for humanity.

---

---

## ***XX. Water or Chicken?***

---

*Finally, finally I arrived at Leon  
With the Holy Grail hidden in  
A dark little room without a sign  
Maybe one day we no longer  
Hide the Light hidden inside*

The deepest secret of the Camino is the joy of drinking the local wines together as pilgrims. I did not drink for many years until I walked through the beautiful hills of the Camino where Rioja grapes are grown, in the valley of the river Oja, the river we also crossed. I had bought and wore a hat too that reflected this feeling.

Somebody along the endless long Meseta told me about the Holy Grail being exhibited in a monastery in Leon. So when I finally arrived there it was my aim to see this Grail. First I visited the magnificent Cathedral, although I had liked the Chicken-Cathedral of the small village of Santo Domingo de la Calzada better. This

---

---

reminded me of my mother taking care of her chickens, often not more than one left, walking on her wooden shoes daily to the barn, feeding them and refreshing their water. In this Cathedral they took care of two chickens, as part of a legend which I don't remember.

Another legend, but this time a true one, is that of the student Lord Byron, when he wrote on the question of how Jesus turned water into wine: "The water met its Master, and blushed."

I found the monastery where the Holy Grail was exhibited, entrance was easy, just buying a ticket. I walked through the sober hallways of the monastery, it was a museum by now, from the beginning until the end, but no Holy Grail to be found.

I asked one of the attendants if she could tell me where I could find the Holy Grail, and she took me halfway back through the museum to a little dark room with no sign, no indication at all of its contents. But indeed there it was, displayed in a box of glass, the Holy Grail.

---

The Holy Grail, which Jesus and the Apostles, including Jacob, used to share the wine at their Last Supper. Water blushing meeting its Master, is it much different from chicken held in a Cathedral?

Water or chicken, they both are part of Christ Consciousness, of Kosmic Intelligence.

So why would the Holy Grail be displayed in a little dark room without any sign? I left the monastery in wonder.

---

---

## *XXI. Playing in the Band*

---

There is an urgent need to become Kosmic Players. Players in the Band. But to sound right, it really helps if the whole Band consists of Kosmic Players. It would really help if we share the Purpose of Life. It would really help if humanity evolves in service of its True Nature. Not just a relatively small group of individuals. We need Collective Enlightenment. We need to collectively Wake Up to our True Nature and collectively Grow Up to become conscious World Citizens.

Is there a choice? Spirit in Action will move forward on its evolutionary path, the tension on humanity and the planet rises. We want a Bulbul to sing to us All, do we? We want to share delicate wine and cheese with our friends, do we? We want a child to have a good life and a promising future, do we? One Hand will always be Clapping, but will we hear it?

As we face tipping points in the climate crisis, we could consciously work towards tipping or inflection points on our evolutionary path. In making the collective

---

---

leap from Homo Sapiens into Deus, in Growing Up and in realizing a sustainable and just planet for our children. Or adding inclusive artistic, spiritual, cultural, social, economic, scientific or technological value.

As humanity we are at a point that taking a step further back is also possible, even entering a path resulting in a negative spiral, even in total destruction of humanity. The windmills might win, might finish first.

If only one of the major constants of nature in the universe had been just slightly different, life on earth and the universe itself would not exist. Also, the distance of our planet to the sun, and the conditions in the different spheres on earth, are perfect for life to emerge and evolve. Is this a coincidence or is this an intelligent evolution with a direction and a purpose?

A sublime future is in Our Hand. Let's make footsteps in the Sand of a safe, just and sound planet. Let's come and work together on this path and inspire each other. Let's all become Kosmic Players. As a Kosmic Audience, let's enjoy the Band playing better and better, from the Heart.

## ***XXII. If Only***

---

Manifestation, not much is needed to raise a Smile.

*If only I could write One True Sentence  
If only I could live One True Line  
If only I could catch One Big Fish  
And bring it upon the Shore  
If only I could pour  
One Glass of Byron's Wine  
I know you would Smile*

*Secret Rainmaker*  
*designed yet another wet*  
*Paraplu Ballet*
